

**STOP THE DESTRUCTION OF OCOTILLO!**

# **TAKE A STAND IN THE SAND**

**Saturday, August 11 at 7 a.m.**

**Meet at the Ocotillo Community Center Park**

**Join us Saturday to make a Stand in the Sand**

**Directions: From I-8- Exit S-2/ Imperial Highway (Ocotillo/Desert Parks exit).**

**Go north on S2. The park is about 1 mile north of Ocotillo on your right.**

Up to 40 million acres of public lands are targeted for industrialization with renewable energy development. Ocotillo Wind is the beginning – and must be the end. San Diego mountains and wilderness are next for destructive energy projects.. Help save these beautiful places—and send a message to our leaders:

- Stop destroying public lands for private profits by big energy corporations
- Stop desecrating Native American sacred sites and entire cultural landscapes
- Stop endangering health and safety of residents. Infrasound is dangerous.
- Stop the wind scam. Stop the bulldozers.
- Stop killing our wildlife. Protect their habitats—and our peace and quiet.
- Stop stealing our children’s heritage. Public lands should be protected for us all!

Our Governor says opposition to big energy projects must be “crushed.” We are the people! Our voices will not be “crushed.” We must stand together to save Ocotillo. There is a better way. Solar on rooftops and parking lots is cheaper, cleaner and faster.

**STAND UP FOR OUR OCOTILLO DESERT AND COMMUNITY!**

**Bring: A crowd of friends and vehicles. Bring posters opposing destruction and supporting rooftop solar. Bring water, sunscreen, food, hat, chairs. Take a stand in the sand! FOR MORE INFORMATION CALL TERRY WEINER, DESERT PROTECTIVE COUNCIL AT (619) 342-5524**
