

## **Ballot Statement**

### **Lynda Marrokal**

Currently running for City Council district 3, I feel I can be an asset to the City Council, because of my prior service on the "Santee Redevelopment Project Area Committee" also know as "PAC 2002" through 2005.

Having been raised in Santee, my family came in 1946, my father was in the Navy and built our home on Mission Gorge Road. My parents were a part of the incorporation of the City of Santee. I grew up and have been a resident of the city for 61 years. I am retired single mother of three, and I raised my children in our beautiful city as well.

With my background in city service, running a prominent Orthopedic practice for over 20 years, being the first women to own a cab company in San Diego county as well as having worked in private investigations under former secret service agent for President Ford, I believe this background gives me a wide range of knowledge that will help me fill the chair on City Council Dist. 3 I look forward to representing you, thank you for your vote.
