Can we talk?

7:48 AM 7/14/2017

Sean

I just saw this

7:49 AM 7/14/2017

What is a good time to talk tomorrow? I am up early

9:07 AM 7/14/2017

9:07 AM 7/14/2017

How u

9:07 AM 7/14/2017

Feel free to call at any time now

6:18 PM 7/14/2017

Please know you are in my prayers.

3:39 PM 8/9/2017

Thank you.

4:23 PM 8/9/2017

I need them.

4:23 PM 8/9/2017

I feel so violated.
From what I'm seeing today, there are so many obvious crimes that are NOT being investigated. Clear felonies committed.

Conflicts of interest. A deep state LEAK A DAY and little to nothing being done. Conversations with the Putins and other

Presidents and Prime Ministers leaked? Unmasking political opponents, leaking Intel? And now we have criminalized political

differences. HRC NOTHING. And NOTHING IS getting done for the great people of this country.

I am truly frightened the constitution is being shredded, (no 4th Amendment protections) no equal justice under the law.

I am truly frightened for the future of this country we love. God help us and the world if we don't get all this straightened out.

I pray that God give you grace and peace in this difficult moment. I sadly know from experience that in times like these

friends will abandon you. (The apostles, Peter, Jesus showed us this).

If you just ever want to talk, grab dinner, vent, strategize-- whatever, I am here. I know this is very hard. Stand tall and

strong.

In my prayers. Sean

If you can watch tonight.

Source Extraction: Legacy

Just watched last nights show

Source Extraction: Legacy

I appreciate what you tried to do.

Mueller is trying to intimidate me. The raid is just one example.

I won't let him succeed but it is very lonely fighting this fight. I feel all alone out there. Except for you and a few others, our

side is not engaged.

Source Extraction: Legacy

Thank you for your help

Source Extraction: Legacy

Call me, text me, email me. Let's eat talk and anything I can do to help.

Source Extraction: Legacy

I'm very sorry

Source Extraction: Legacy

Ty. Your text yesterday really helped me

Unlimited budget for spec prosecutor and millions of dollars of media negative and false coverage. It is very daunting
Source Extraction: Legacy

But I won't give up
Source Extraction: Legacy

And I won't sell out
Source Extraction: Legacy

And I'll continue to talk about the fact that we DO NOT HAVE EQUAL JUSTICE UNDER THE LAW.
HRC. E mails. Obstruction. Destroying emails, bleach bit, devices no sim cards. Uranium one. Ukraine interference
Intel Leaks Unmasking Potus conversations leaked.
My God. Shredding the constitution. A 2 tiered justice system.
Look at Muellers team. All Clinton Obama dem donors. No R's

Mueller deputy praised DOJ official after she defied Trump travel ban order: ‘I am so proud’
A top prosecutor who is now a deputy for Special Counsel Robert Mueller’s Russia probe praised then-acting attorney general Sally Yates after she was fired in January by President Trump for refusing to defend his controversial travel ban.

The email, obtained by Judicial Watch through a federal lawsuit, shows that on the night of Jan. 30, Andrew Weissmann wrote to Yates under the subject line, “I am so proud.”

He continued, “And in awe. Thank you so much. All my deepest respects.”

The disclosure follows confirmation that another Mueller investigator, FBI official Peter Strzok, was fired over the summer after allegedly sending anti-Trump texts to an FBI lawyer with whom he was romantically involved.

His alleged actions revived concerns about the objectivity of the FBI probes of both Hillary Clinton’s email setup and Russia election meddling.

Judicial Watch President Tom Fitton called the new Weissmann document an “astonishing and disturbing find.”

“Andrew Weissman, a key prosecutor on Robert Mueller’s team, praised Obama DOJ holdover Sally Yates after she lawlessly thwarted President Trump,” he said in a statement. “How much more evidence do we need that the Mueller operation has been irredeemably compromised by anti-Trump partisans?”

The Jan. 30 email was sent at 9:50 p.m. from Weissmann’s government account, when he was still in the DOJ’s criminal division and before he was assigned to Mueller’s probe.

The email was sent shortly after Trump fired Yates for refusing to defend the first version of his ban on travel from certain majority-Muslim countries.
They have ratched up pressure on me with this BS on my ball

We file our motion today pushing back hard

Not conceding an inch

Plus the media has to now print the story

I am sure you have this just but in case:

Creeps on a Mission: Michael Horowitz is really Investigating the Investigators posted by Sidney Powell - 12 hours ago

Sidney Powell, Attorney & Author of LICENSED TO LIE: Exposing Corruption in the Department of Justice | licensedtolie.com

Since at least July 2016, the upper echelon of the FBI and the Department of Justice began a stealth operation—with the complicity if not instigation of President Obama—to taint and destroy Candidate Trump with a concocted "Russia collusion" narrative.

Michael Horowitz, the Inspector General of the Department of Justice, has been running a little-watched parallel investigation that is already producing results—when he is not manipulated or overborn by Robert Mueller. His name is not familiar to most Americans, but Mr. Horowitz has played an important role since President Obama named him Inspector General (IG) for the Department of Justice in 2012. Congress mandated the position of IG for every major federal agency. The 72 IGs work on behalf of the taxpayers as independent watchdogs over their respective agencies.

If you think the IG position is not important, remember this: Remarkably, President Obama did not appoint a permanent one for the State Department during Mrs. Clinton's entire tenure. When John Kerry took over as Secretary of State, the newly appointed IG found and disclosed that Ms. Clinton ran an illegal secret server, and they immediately identified classified material in the first random sample of only 40 documents.

Mr. Horowitz already deserves kudos for trying to do his job at the Justice Department and obtain information from the administration that appointed him. Eric Holder and Loretta Lynch stymied his efforts at every turn. Their defiance of his Congressionally-mandated duties was so egregious he and 46 other IGs wrote a letter to Congress complaining of the Obama administration's obstruction of justice.

So much for Mr. Obama's claim of having "the most transparent administration ever."

Sally Yates, who was the Number Two person at DOJ, blocked Mr. Horowitz from oversight of the National Security Division of the Department of Justice. Notably, that is the division that worked with the FBI on the Steele dossier and the FISA "warrant" to create the "Russia collusion" pack of lies—and who knows what else. Since President Trump's inauguration, however, Mr. Horowitz has been somewhat more successful in obtaining information. For almost a year, he has been investigating how Mr. Comey, the FBI and Department of Justice handled the issue of Mrs. Clinton's emails and matters that may be related to that.

Meanwhile, within the intelligence community, Admiral Mike Rogers, director of the National Security Agency (NSA) discovered so many violations of the surveillance program that he had to make significant changes and report the problems to Congress. Mr. Horowitz has been following up on those, and he may very well report pervasive and systematic abuses of that extraordinary power by the elite of the Obama FBI and DOJ.

Mr. Horowitz discovered the 10,000 text messages between now infamous FBI operatives Peter Strzok and Lisa Page. Ms. Page was an FBI/DOJ attorney serving as a special assistant to Deputy FBI Director Andrew "Memory-Impaired" McCabe, as well as assistant to Counter-intelligence Agent Peter Strzok. Many of these players—Page, Strzok, McCabe, FBI General Counsel Baker and Mary Jacoby, the wife of Fusion GPS's Glenn Simpson—visited the White House throughout the time they were cooking up the "Russia collusion" concoction.

Mr. Strzok was at the epicenter of the farce of an "investigation" of Mrs. Clinton for her blatant obstruction of justice and violations of 18 U.S.C. Section 793 in her transmission of classified information through her unsecured server with President Obama. Mr. Strzok received, obtain the FISA "warrant," and create the stench of an investigation—all to impeach Donald Trump's election. If we ever get all of the evidence and truth, it will probably reveal that their "insurance policy"—if Mr. Trump was elected—began with the "collusion" concoction and built the groundwork for the appointment of a special prosecutor if Mr. Comey were to be fired.

Mr. Horowitz's discovery of the Strzok-Page message-menage-a-trois so far has resulted in the secret removal of Agent Strzok from Mr. Mueller's task force and now his reassignment within the FBI. The shocking disclosures have also prompted Ms. Page's return to DOJ, FBI Deputy Director McCabe's decision to retire in March, and longtime James Comey friend and colleague FBI General Counsel James Baker's reassignment.

We should also thank Mr. Horowitz for the demolition of Department of Justice Deputy Assistant Attorney General Bruce Ohr, whose wife Nellie worked on the Steele dossier with Fusion GPS. Mr. Ohr met secretly with them, and his "fingerprints" are all over the FISA applications to conduct surveillance on the Trump campaign based on contrived "evidence". These changes are a start toward draining the swamp—but nowhere near enough. Director Wray should have fired Peter Strzok, Andrew McCabe and James Baker already, and Attorney General Sessions should have fired Bruce Ohr and Lisa Page. Conduct like theirs has no place in any Department—much less one purporting to represent Justice.

Has Mr. Horowitz found any evidence Sally Yates and Loretta Lynch were also complicit? That would explain why Ms. Yates barred him access to a National Security Division that was scheming with the FBI. Who else in the Department of Justice and the FBI were conspiring with them to try to prevent President Trump's election and then create a scenario or manufacture evidence to promote his impeachment? What about the head of the National Security Division within DOJ—John Carlin? What role did he play in all of this? And what about the FBI's Counter-Intelligence Chief—Bill Priestap, whom Comey blamed for his own failure to make the legally required report to Congress of the FBI's illicit FISA-related activities.

Mr. Horowitz may not have all of the answers. He is stymied in many ways by Mueller's investigation, and it is likely there is still more evidence buried deep.

As I said on Hannity weeks ago, expect to see that we are not talking about "mission creep" by FBI, Department of Justice, Special Counsel Mueller and his task force; rather, the real problem is there are "creeps on a mission" to destroy the President. Stay tuned for more when Horowitz completes his report and testifies before Congress.
I'm hearing about widespread FISA warrant abuse discovered. This is only the beginning.

Did U watch last night.

You were awesome last night.

Today proved insanity of media.

They are worried given all that is now happening. They are running out of time in this phase of their investigation (sic). And have nothing except BS charges on me. They are threatening me with more charges because they realize their case is weak and I am not bending to their pressure. JK threats may be another way they are trying to get DT to agree to interview.

He won’t agree. The lawyers will fight tooth and nail. Proffered agreement. All pre planned. Anything else I would take to SC.

Weak

Their case on me is very weak.

I agree. My biggest fear for you is venue.

Weissmann is a piece of shit.
I would move to dismiss just based on his past.
Withholding exculpatory evidence. 9-0 SC.

This is a National fing disgrace

We are figuring this out.
We will be using info you have uncovered in our motion to dismiss. Setting everything up in our discovery demands

This article tracks your investigative reporting.

This is the best article I have read on laying out the intricacies of how the Obama Adm/ FBI spreading of the Russian Collusion narrative.
It traces how the FBI, CIA, DNC, Clinton Campaign, WH worked with the media and Steele/Fusion to build the case using cut and outs and non verification verifications to bring credibility to a Potemkin narrative.
It is very important to read this article for no other reason than to confirm your reporting

So f**king corrupt.

We argue this authority abuse on April 19.

And media doesn't give a shit.

These judges all seem vs u.

I'm very concerned.

On every level.

Jackson's. We think we can score points in Va on these abuse issues. Do you know status of IG Report?

May.

Tonight I heard Memorial Day. Imagine hat.

That.

That is BS.

Sessions is totally worthless.

Wordless.

By the way Jackson denied me bail again today. Declared most of my hard assets couldn't be used, all on BS reasons. Wants me to use my cash, which she knows I wont do because I need it for my legal defense. She is working with AW strategy to squeeze me.

So I may be stuck if I cant find about 2.5m.

Yesterday was a surreal day.
The media gang up on you makes no sense and is just more proof of how abusive the fake news media is. No one but the enemies care that you had some association with Cohen.
You put your case out there very clearly and succinctly last night. I recommend that you now move on!
Your millions of fans and most Americans understand that this invasion of your privacy rights is abusive and wrong. You don't need to be defensive.
Mueller is a gestapo ops that is trampling on all our constitutional rights.
He has violated my attorney-client rights twice so far:
1. The no knock search where they took clearly marked atty/client files;
2. Their forcing my FARA attorney to turn over clear atty/client files and communications and forced her to give testimony on these matters.
Stay strong and stay on offense!
You are truly a key part to saving America from this Fascist attack on our constitutional rights!

Unbelievable that you are being attacked for investing in real estate.
They attacked me for the same thing. Jealousy. Hang tough. You are truly leading the brigade that is saving America from the fascists!

Tell me exactly what he said about RR

??

Sorry was on phone. Let me get for you.

This expose on Mueller is on Wall St today:

Today is a turning point. Watch the show tonight. I just taped it

I def will watch

Read all 50 pages. HOLY SHIT

Friday had more good things than got covered

I have the transcript

Ellis took it to Drebeen from first moment.

Biggest beat down ever. I think u win on merits.

It plays right to your narrative. You should get copy of leaks motion I filed last Monday in EDVA. Traps false info leaks by USG/GOV/JOSC. Shows motive for malicious prosecution and get DT. We sent a copy to Jimett.

Send me that.

My monologue tomorrow is gonna be on this judge.

Will do.

By the way did you see what DC Court Judge (a Trump appointee) did in case of OSC v 12 Russian companies?

Yes sir.

Hitting that too.

Discovery in my case and this case could blow lid on Mueller/ AW

Yes.

Agree.

I was surprised your team didn’t focus on the fact that Rosenstein gave the ocs permission "POST RAID!" July 28 vs August 2.

Permission should have been granted long before they started this specific area of investigation.

That’s a huge point.

Also into a motion can be made citing Weissmann’s past ethical conduct.

That is the result of our motion. Everything both May 17 and Aug 2 is gone unless there is a specific delegation (which there is not). Ellis understands this point clearly. He rules the way he spoke and this is a part of his findings.

The leaks memo sets up AW conduct.

I will get to you. But Jarret should have it already. We sent to him on Monday or Tuesday.

He wouldn't share that with me. So need from u guys.

I will get it.
May have to send to your email address.

K.

Let me know if u need.

Problem also for u is fighting on 2 fronts.

Aol.com right.

Yes.

Hannity.

I chose the 2 fronts.

Ok.

Puts pressure on Judge Janson and OSC.

It was key to my strategy.

If the DOJ notes are put out I am pretty certain the 2006-2007 a decision was made to NOT go after charges.

AW flipped out when i told him i wouldn’t waive jurisdiction and forced the case to be brought in EDVA.

Got it.
I KNOW THAT IS TRUE
And so does Ellis.

The judge is right. These prosecutors don't want to lose

They lose all perspective

AW knows DOJ and the Tax div said there was no case

This is about u getting big squeezed on trump. The judge gets it

Well he has not learned a thing then from the past. That's sad for the country

That is why EDVA didn't take action and refused to be part of OSC team. The only reason a lawyer from EDVA was present on Friday is because DOJ - RR ordered them to send someone

Makes sense. RM hired another Dem from that district recently

Yes but only after RR instructed the uSAtty to allow it

Yup.

The raid was on the 26. The investigation went on way ahead of that. The RR letter was August the second. You cannot grant permission after the fact

Exactly.

Plus AW knew the uSG refused to proceed on prior invest

Yes to the judges point.

I think this gets thrown out

But that won't end it for throes people

They will judge shop it to death

I agree.

Best for me Ellis knows there were previous investigations and US attorneys concluded those investigations did not merit indictments. Ellis understands AW took disinspected matters and created crimes that did not existed using smears and prejudicial illegal leaks to create a narrative upon which to indict.

Coupled with illegal delegation by RR we got to good end.

It's awful.

https://www.nationalreview.com/2012/05/national-review-report-redactions-cover-six-stories/

If I prevail with Ellis Flynn will benefit. And of course QT and Jared. The only loser will be Gates, and Miller.

The whole thing stinks to high heaven.

And someone is being paid a lot of money to smear me. So corrupt typical and predictable.

When your lawyers make the point the GSC cannot act retroactively, the dates begin to matter.

Investigation begin when? July 26 raid.

August 2 authorizations

I don't think that was clear enough.

Can you call me after your radio show.

I want to run something by you before your TV show tonight.

Sure.

When is the gag order lifted.

I hope in mid June. Next week we do our oral arguments in front of Ellis on Govt leaks. This hearing ties into my motion to dismiss. Espouse SC and the counter intel ops.

Praying he won't cave.

One of the best lines in this whole witch hunt was the lawyer for the nonexistent Russian company.

Yes.

This is BS. Not accurate.

They were covered in Va recently - in last month. Their exposure is from May 17, 2017 failed delegation. Can't be fixed retroactively.

Meaning raid July 26. Mandate expansion August 2?

We don't know if anything was cured on Aug 2. For sure everything BEFORE Aug 2 is tainted unless they can show proper delegation prior to Aug 2. We don't think they can show it.

I made Sara Carter a center point in my Leak motion reply last night. My person has briefed her up.

She told me.

Levin is right but he missed one point.

The expansion of auth in EDVA does NOT cure the defective original delegation of authority. So everything that Mueller did before May 17 and at a minimum Aug 2 cannot be fixed.

The Politico story misses this point.

That's what I have been saying. Mark is on to a great argument in my.

He is

This is what we argued to Ellis. He seems to get it.

Good. Things are now shifting dramatically.

Thanks to you! And your team.

I know you know this but for the record:
This Mueller claim of jury tampering is a total lie.
It is the latest squeeze.

Just wanted you to hear from me on it.

This tactic is right out of AW's Merrill, AA and Enron playbook.

Right up there with predawn guns drawn, raid of my home.

Ok. Got it. Understand. These real crimes committed and ignored disgust me.
Fisa HRC.
