Working to Create Jobs and Turn the Economy Around in San Diego County

(Last updated June 2010)

Senator Barbara Boxer’s top priority is creating jobs and turning our economy around, and she has a specific plan to do this. Her plan includes: creating thousands of clean energy jobs and making California the hub of the clean energy economy; ending tax breaks for companies that ship jobs overseas; cracking down on Wall Street speculation and instead lending to small businesses; investing in infrastructure and creating new jobs; and reducing the deficit.

Senator Boxer supported the economic recovery act, which GOP Senate nominee Carly Fiorina opposes. From the recovery act, San Diego County has been awarded a total of $1.42 billion for 1,376 investments in the community.

Here are some examples of investments in the community that are helping to create jobs and revitalize the economy in San Diego County. [Recovery.ca.gov]
