

Summer brings the start of fire season and after the devastating fires of 2007, it's important to be prepared. Come and learn which succulents to plant for fire-safety and how to create a "wall of water" that will help protect your home from fire. Not only are some succulents fire safe and drought tolerant, they can create a unique, lush, and picturesque landscape.

## FIRE SAFE LANDSCAPING WITH SUCCULENTS

LEARN HOW SUCCULENTS CAN CREATE A FIRE RETARDANT BARRIER.

Join us for this free seminar

Date: ~~Saturday, July 28, 2012~~

**Rescheduled to: Saturday, August 25, 2012**

Time: 9:00 am-11:00 am

Please RSVP by August 20<sup>th</sup> to:  
[talkplants@waterwisebotanicals.com](mailto:talkplants@waterwisebotanicals.com)

The event will be outdoors. Picnic-table seating is available on a first-come, first-served basis. We'll provide bottled water. Bring a hat and/or sunscreen. Bring a brown bag lunch if you like. Any purchases made during this event will receive a coupon for instant discount!

### Seminar Presenter: Tom Jesch

Tom Jesch can best be described as engaging, innovative and enthusiastic. With a background in agriculture for over 40 years, he and his wife, Jackie founded Daylily Hill, now Waterwise Botanicals. Nestled in the rolling hills of North San Diego County, Waterwise Botanicals is more than a nursery. It's more like an adventure or a field trip ...20 acres to explore, experience and inspire! Tom created several demonstration gardens with wild and wonderful, cutting edge plants bringing inspiration to homeowners, landscape contractors and architects alike.
