

STOP COTTONWOOD SAND MINE

Cottonwood Golf Club owner (Cottonwood Cajon Es, LL) is applying for permits to develop the property into a Sand Mine operation. The project would mine 198 acres of 280 acres and produce 5.7 thousand tons of sand every year for a 10-year period. Major trucking of sand will start as early as 4am and trucks will make at least 170 round trips daily – that's 21 heavy trucks coming or going on Willow Glen Drive every hour. Please share with your neighbors how we can work together to STOP this project from being approved!

STOP Cottonwood Sand Mine
Save Our Neighborhood
