Dear Mr. Kruze,

Please allow this letter to serve as a follow up to your public records act( PRA) request on behalf of the Cajon Valley School District. Apparently your letter and request was not received by the office until Wednesday April 24,2019. I have been advised that it ended up in spam . I have asked the Director of IT to provide an explanation which I will share with you immediately upon receipt. Please be assured no one purposely ignored your request. We will do our very best to respond as early as possible next week. I do believe that the statutory time for response would begin until April 24, but regardless we recognize the need to attempt to expedite the process.

Sincerely,

Daniel Shinoff
